Briefing Memorandum

ORGANIZATION (full name): **Hollywood Hills West Neighborhood Council (HHWNC)**

EVENT NAME: Executive Committee Meeting

PURPOSE OF EVENT: planning by the Executive Committee for their regular council business; the CM is attending to further encourage a strong working partnership with the council and discuss items of concern for their NC

PEOPLE TO RECOGNIZE/ PEOPLE YOU WILL SEE:

Anastasia Mann, President

Orrin Feldman, vice-President, Chair of HHWNC P.L.U.M committee

Kathy Banuelos, Secretary

Jane Crockett, second vice-President

Michael Meyer, Treasurer

TALKING POINTS:

1. Runyon: The basketball court project was stopped, but the concern now is two-fold: a) the MOU with the Friends of Runyon Canyon. Members of the community (the ones who filed the lawsuit) want it revoked, "torn up". I think the Board may start to feel similarly. Sarah, Estevan and the CM have had discussions about this, but I don't know where they're at now. I can discuss more offline, we should involve Estevan. b) the DWP pipe replacement is proceeding on schedule, so they will also be concerned with what happens with the Park reopens at the end of July – traffic concerns, parking concerns, etc.

2. Tour Buses: One of Anastasia's main issues, she has been working both the Nick on our tour bus motion, as well as Asm. Nazarian's office on the state issues involved.

3. Development: This NC, in particular the flats part of this NC has a lot of large projects on the way all along Sunset Blvd in the flats, not hills part of the NC: including 8150 Sunset, the proposed Gelson's near Gardner Elementary, the Illuvian project, and 7120 Sunset, the empty lot across from library. Concerns from the neighbors about height, density,

and traffic for all of them. Additionally, especially in the hills, impacts of all the construction on the small windy roads. For example in Nichols Canyon/Mt. Olympus area, there are 8 active construction sites, in an area that DWP is about to start a pipe replacement project, that will involve road closures.

4. **Traffic:** both Waze cut-through and construction impact. I just attended and committee meeting on Thursday to discuss with Orrin, I have been working with DOT and others.
